P R O F I L E

Hello, my name is Sana Zarei, and I am a passionate and experienced computer engineer with a keen interest in programming and software development. I possess deep skills in modern programming languages such as **Python** and have significant experience in web development and application design. I am also interested in **Machine learning**, artificial intelligence, and the development of innovative products, always seeking to use new technologies to solve complex problems and enhance user experience. My commitment to quality, creative problem-solving, and effective teamwork are key attributes that define me as a software engineer.

E D U C A T I O N

- **Bachelor of Computer Engineering**
Islamic Azad University of Shiraz
2019 - 2023

S K I L L S

- HTML
- Python
- CSS
- Django

E X P E R I E N C E

- **Developing and maintaining a Django web application for a e-commerce platform (6 months)**
Acme E-commerce
Responsibility: Developed and maintained new features for the e-commerce platform using the Django framework
Achievement: Reduced response times by 20% through database optimization
- **Migrating a legacy web application to the Django framework**
ABC Technologies
Responsibility: Migrated a legacy web application to the Django framework
Achievement: Completed the migration project on time and within budget
- **Contributing to an open-source Django project (4 months)**
Personal
Responsibility: Contributed bug fixes and enhancements to the Django REST Framework codebase
Achievement: Contributed over 100 pull requests that were incorporated into the Django REST framework

C E R T I F I C A T E S

Introduction to Computer Science or **CS50X**

This course teaches you how to solve problems, both with and without code, with an emphasis on correctness, design, and style.

Introduction to Programming with Python or **CS50P**

An introduction to programming using Python, a popular language for general-purpose programming, data science, web programming, and more.

Introduction to Artificial Intelligence with Python or **CS50AI**

Learn to use machine learning in Python in this introductory course on artificial intelligence.

Introduction to Databases with SQL or **CS50SQL**

An introduction to databases using a language called SQL.

Web Programming with Python and JavaScript or **CS50W**

This course picks up where CS50 leaves off, diving more deeply into the design and implementation of web apps with Python, JavaScript, and SQL using frameworks like Django, React, and Bootstrap.
